React Native · Expo · Electron · Windows

Fastify · Node.js · REST APIs · PostgreSQL · Prisma · Supabase · MySQL

Git · Docker · Vercel · GSAP · Three.js

## LANGUAGES

English · Amharic

ServiceLink Mobile - In development.

## PROFILE

Software engineer building web, mobile and Windows applications, APIs, and workflow systems. Combines independent product development with healthcare IT and website development at Dr. Saba Medium Clinic.

## EXPERIENCE

### Dr. Saba Medium Clinic

2025 - present

IT Officer & Website Developer

Lead the responsive clinic website and support day-to-day digital systems, connecting development with practical healthcare operations.

### Independent Product Development

2026 - present

Build multiple mobile apps, web platforms, Windows tools and clinic systems - from requirements and user journeys through implementation, verification and setup documentation.

## ENGINEERING PROJECTS

- **ClinicFlow** — In development

  Develop role-based clinic workflows with API authorization, audit events and relational data. LAN deployment and backup tooling prepared; live operational validation pending.

- **Giveaway Hub** — In development

  Build an Expo client for GiveawayFair with discovery, multi-role screens, shared accounts, uploads and native authentication storage. Backend release checks, push setup and store submission pending.

- **Smart Timer for Windows** — Unsigned beta

  Build countdown, stopwatch, clock, Pomodoro and Tabata with timestamp-based state, tray actions, shortcuts, overlays and suspend/resume handling. Installer and portable builds prepared; final release checks pending.

## SELECTED WEB WORK

| | |
|---|---|
| **Clinic website** | Responsive clinic services and contact paths |
| **GiveawayFair** | Multi-role accounts, ownership and shared content |
| **Coinza** | Authentication, market-data, wallet and subscription UI |
| **Hotel Reservation** | React/PHP/MySQL academic project, 2023 - 2024 |
