EDUCATION

2018 — 2023
BSC, COMPUTER SCIENCE

HiLCoE School of Computer Science & Technology

2024 — 2025
MERN STACK & PROGRAMMING FUNDAMENTALS CERTIFICATE

MongoDB · Express · React · Node.js

CORE TECHNOLOGIES

React · TypeScript · Next.js
React Native · Expo
Electron · Windows
Fastify · Node.js · REST APIs
PostgreSQL · Prisma · Supabase
GSAP · Three.js
Git · Docker · Vercel

LANGUAGES

- English
- Amharic

ServiceLink Mobile — In development.

PROFILE

Software engineer building websites, mobile and Windows applications, APIs, and practical workflow systems. Works across React, TypeScript, React Native, Electron, and relational data. Combines independent product development with hands-on healthcare IT and website development at Dr. Saba Medium Clinic.

PROFESSIONAL EXPERIENCE

Dr. Saba Medium Clinic

2025 — PRESENT

IT Officer & Website Developer

- Lead website design and development, presenting clinic services through a responsive public experience.
- Support day-to-day digital systems and connect software decisions with practical clinic operations.

Independent Software & Product Development

2026 — Present

Web, mobile & desktop applications

- Build multiple mobile applications, a giveaway web platform, Windows productivity software, and clinic workflow systems.
- Work from requirements and user journeys through implementation, verification, and setup documentation.

ClinicFlow

In development

React · TypeScript · Fastify · PostgreSQL · Prisma · Docker

- Develop role-specific workspaces connecting registration, staged payments, nursing, consultation, and laboratory work.
- Implement API authorization, audit events, relational data models, and clinic LAN deployment and backup tooling.
- Live clinic deployment and operational validation remain pending.

DEVELOPMENT APPROACH

Understand the workflow; define journeys, roles, and data; build the application; verify behavior and error states; document setup, delivery, and remaining limitations.

TECHNICAL SKILLS

WEB

REACT · TYPESCRIPT · JAVASCRIPT
NEXT.JS · VITE · TAILWIND CSS

HTML · CSS · accessible UI
Responsive design · GSAP ·
Three.js

MOBILE & DESKTOP

REACT NATIVE · EXPO · EXPO ROUTER
TANSTACK QUERY · ELECTRON

- Tray actions · global shortcuts
- Windows packaging

APIS & DELIVERY

Fastify · Node.js · REST APIs
PostgreSQL · Prisma · Supabase
MySQL · Git · GitHub
Docker · Vercel
TypeScript checks · Lint
Unit tests · Browser checks
Documented release boundaries

VERIFICATION

- Behavior · permissions
- Error states · device layouts

SELECTED WEB WORK

Dr. Saba Medium Clinic — responsive clinic services website and contact paths.
Giveaway Fair — multi-role accounts, ownership safeguards, and shared content.
Coinza Dashboard — authentication, market-data views, wallet and subscription screens.

ENGINEERING PROJECTS

Giveaway Hub

IN DEVELOPMENT

React Native · Expo · TypeScript · Expo Router · TanStack Query · Supabase

- Build native discovery, authentication, consumer, company, and admin screens for GiveawayFair.
- Reuse shared accounts and content with native authentication storage, uploads, and notification handling.
- Backend release validation, push setup, and store submission remain pending.

Smart Timer for Windows

Unsigned beta

Electron · React · TypeScript · Electron Vite · Vitest

- Build countdown, stopwatch, clock, Pomodoro, and Tabata modes with natural time commands and timestamp-based state.
- Integrate tray actions, global shortcuts, a compact overlay, suspend/resume handling, and multi-monitor persistence.
- Prepared installer and portable builds; final release checks remain pending.

Hotel Reservation System

Academic project

2023–2024 · React · PHP · MySQL · REST APIs

- Connect hotel discovery, room selection, and booking interfaces to a PHP and MySQL backend.
